

Digital Literacy for Students

- Ability to use digital tools safely, effectively, and responsibly
- Includes communication, research, online safety, and professional behaviour

*Understand Digital,
Master the Future*

What Is Digital Literacy?

Digital literacy is the ability to use digital tools effectively, safely, and responsibly. It includes finding, evaluating, creating, and communicating information online

Skills Today,
Success Tomorrow

Useful Digital Tools for Students

GitHub:
for projects and coding

Google Drive:
store and share files

Canva:
create presentations and posters

LinkedIn:
build a professional profile

- Use strong passwords
- Never share OTPs or personal details
- Check if websites are secure (https)
- Avoid suspicious links and downloads

Safe Internet Practices

Be Aware, Not
Unprepared

Professional Online Presence

Think Before
You Click

Digital literacy teaches us to think critically about online content. It helps us identify fake news, scams, and unreliable sources

- Use a professional email address
- Keep social media clean and respectful
- Build profiles on LinkedIn and GitHub
- Think before posting

Email Etiquette

- Write clear subject lines
- Be polite and formal
- Check grammar before sending
- End with your name and details

Thank You
